#### **HOW TO CALCULATE YOUR PROPERTY RATES**

The category and use of the property determines the rate charged on the property.

All categories and users are coded and the code is reflected alongside your rates charge on the statement.

Use the Market Valuation as reflected on the statement to do the calculation below.

Monthly Ratepayers divide the answer by 12 to obtain a monthly charge.

List of Codes and applicable Rate:

\*AH – Value x rate **0.0104c**

\*BF – Value < **R480 000.00** residential rebate **R145 000.00** x rate **0.0104c**

\*BI – Value, less **R15 000.00** residential rebate x rate **0.0104c**

\*AJ – Value x rate **0.0218c**

\*BA – Value x rate **0.0238c**

\*BB – Value x rate **0.0026c**

AD – Value x rate **0.0218c**

AT – Value x rate **0.0260c**

SS – Value x rate **0.0120c**

Value > R480 000.00 = Value – (15 000.00) x rate 0.0104c
